\$2.69 pair.

English Knitted Shoes, Bulldog and Broad toes,

pair, worth \$6.00.

BUSINESS TROUBLES.Application for a Receiver for Jimenes,
Haustedt & Co.Application for the appointment of a receiver
of the firm of Jimenes, Haustedt & Co., Haytian
commission merchants, was made yesterday to
Judge Beckman, who reserved his decision.The application was made in a suit brought by
Mercedes Schwemer and Otto Haustedt, execu-
tive and executor of Johannes A. Haustedt, against
Oscar Huttlinger, the resident managing
partner of the firm, Johannes A. Haustedt,
died in January last. A few months after
his death his widow married Schwemer. It
was alleged in the complaint that Huttlinger
had deprived the widow of her share in the
management of the partnership to which, as
executrix, she was entitled. It was alleged that
articles of partnership existed last year con-
cerning the management of the business, and
Huttlinger, as surviving general partner were
signed by Johannes Haustedt when his mind was
affected. Just before Mr. Haustedt's death, he
and Schwemer had a conference at the Hamburg
houses by agreement between him and
Juan Y Jimenes, who became a special
partner for the firm. It was also alleged
that if Mr. Haustedt's mind was not sound, this
agreement also must be declared valid, and the
estate will be eaten up by the liabilities which
were incurred during the time of his illness.The defense also set up that the suit was
instigated by Schwemer, who wants a share
in the management of the business. An attachment
was issued yesterday against the Tropical
Decorating Company of 410 Lexington
ave., and in favor of Henry B. Mc-
Cormick for money loaned.Justice O'Dwyer has appointed Thomas Hogan
receiver in supplementary proceedings of Rich-
ard J. Smith, publisher, on application of
John B. Salmans.Two executions were held yesterday against
the Reynolds Car Manufacturing Company of
404 W. 14th street on two judgments aggregat-
ing \$500 in favor of Israel P. Larson.Thomas H. Evans, advertising agent and pub-
lisher, has filed a petition for a receiver's ap-
pointment without preferences to Henry E. Gil-
liss. His liabilities are \$25,000, and the assets
are said to be nearly as much. Evans was also
in the best of manufacturing political cam-
paign articles, for which there has been little
success.**BAYONNE'S WATER SUPPLY.**Jersey City Shuts Out a Competitor by
Dedictating a Street.The city of Bayonne gets its supply of water
from Jersey City, and the price paid for it adds
considerably to Jersey City's revenue. The
East Jersey Water Company has been making
efforts for some time to get a contract from
Bayonne. The company has been laying a
pipeline from Newark across the meadows in
the direction of Bayonne, and in the name of
the New York and New Jersey Water Com-
pany. The line has been completed to within
about 200 feet north of Danforth avenue, at a
point where the continuation of the avenue, if
it was opened, would run through the Newark
Bayonne Canal and the Head of the Street
and Water Commissioners decided yesterday
to block the Water Company's plans and prevent
it from entering into competition with the
city of Bayonne in supplying water. A resolu-
tion was adopted by the Board dedicating the
strip of land which is the natural continuation
of Danforth avenue, from the Canal to
Newark Bay, as a public street. The resolution
was hurried down to the City Hall, and Mayor
Wanzer signed it.The city of Bayonne cannot lay its pipes across
the new street without the permission of the
city authorities. In case an attempt to lay the
pipes through the new street should be made,
it will be left to the courts to stop it.on the ground that the charter of the canal
company does not permit the laying of pipes
in the same. Mayor Wanzer, however, the Chief
of Police Murphy to put men on guard at the
new street to see that no waterpipes are laid
over it or under it.**FINANCIAL AND COMMERCIAL.**

THURSDAY, Oct. 22.

The long-expected advance in the minimum
rate of discount of the Bank of England oc-
curred to-day. The rate was advanced from 3
to 4 per cent. As the open market rate of dis-
count in London has ruled at 3½ per cent. or
better for some little time past and constant and
heavy withdrawals of gold have been made from
the Bank of England, chiefly for export to the
United States, the advance in the Bank rate
took no one by surprise. The London market
for securities, both domestic and foreign, showed
that the change in the Bank rate had been dis-
counted. It caused a slight temporary
depression in prices on the London Stock Ex-
change and resulted in unimportant sales held
by foreign arbitrage houses. It became plain
soon after the opening of business that the ad-
vance in the rate had been discounted and in
consequence traders who sold stocks yesterday
and this morning at once betrayed anxiety to
recover them.The speculative situation was also strength-
ened by the receipt of \$1,810,000 gold from
abroad, of which \$1,000,000 was deposited in
the Sub-Treasury in exchange for legal notes, and
London open spot, to-day, from the
Steamship America, which arrived on Oct. 19.The net assets of the Treasury at the close of
business to-day, as officially computed, compare
with those of yesterday as follows:
